## LIFE AT CELEBRATION VILLA

At Celebration Villa, we believe life should be celebrated at every stage. Residents can choose to fill their social cards with events and group activities, or further their personal growth through creative, spiritual, and educational opportunities. We prioritize a mix of offerings that nurture our residents' mind, body, & soul. Every opportunity is intentionally offered to our seniors to encourage and prioritize long-term health.

### **MIND**

Intellectual exercise is the first of this trio and helps our seniors to improve attention, enhance memory, and increase independence. We do this through activities such as:

- Book clubs
- Trivia night
- Visiting local museums

### **BODY**

Physical activity is crucial to maintaining seniors' balance and mobility. A few examples of these activities include:

- Chair yoga
- Walking clubs
- Chair or standing aerobics

### **SOUL**

Enriching the soul can be done in a wide variety of ways, and are based on how residents would like to see their personal growth or give back to the local community. Some ways we love to incorporate self care are:

- Spiritual or religious services
- Pet therapy
- Volunteering at a local soup kitchen
